Public Information Center (PIC) - Pacific Ave Signal Optimization

Posted Sunday, June 18, 2023

City of Atlantic City
Pacific Avenue Signal Optimization
Hartford Avenue to Massachusetts Avenue

Tuesday, June 20, 2023 6 PM - 8 PM

PUBLIC INFORMATION CENTER

Carnegie Center
35 South Martin Luther King Boulevard
2nd Floor Lecture Room
Atlantic City, NJ 08401

Atlantic City plans to install an Advanced Traffic Signal System along Pacific Avenue with the goal of reducing overall congestion by minimizing delay at each intersection and improving overall travel time through the corridor. Come learn about the project and provide your input. Project team members will be present at the meeting to answer questions.

This project is being funded using Federal Highway Administration (FHWA) Congestion Mitigation and Air Quality Improvement Program (CMAQ) Funds made available through the South Jersey Transportation Planning Organization (SJTPO).

Atlantic City will be hosting a Public Information Center (PIC) to inform local residents, officials, businesses, and the general public about the deployment of an advanced traffic signal system project along the Pacific Avenue corridor from Hartford Avenue to Massachusetts Avenue in Atlantic City. The goal of this project is to reduce overall congestion by minimizing delay at each intersection and improving overall travel time through the corridor. **The purpose of this PIC is to share information on the project and solicit input on the traffic signal timing improvements.**

Atlantic City Announced as New Jersey's 35th Transit Village

Posted Friday, June 16, 2023

The Murphy Administration announced the City of Atlantic City as a Transit Village, making Atlantic City New Jersey's 35th municipality to be recognized. According to a release by the New Jersey Department of Transportation:

Atlantic City's primary objective in the Transit Village District is to promote compact, mixed-use development, and a walkable, bikeable and transit friendly environment around the Atlantic City rail station, which is the focal point of the Transit Village.

The plan is to increase housing opportunities within walking distance of shops, restaurants, offices, entertainment, and cultural centers by increasing opportunities for pedestrian activity and reducing reliance on automobiles. This should help reduce traffic congestion and pollution, boost the local economy, and improve the feeling of safety and security.

"It's been important to the Small Administration to enhance public transit, strengthen our economy, and encourage development near our transit facilities," said City of Atlantic City Mayor Marty Small, Sr. "With this recognition and support, we will continue our efforts to make even greater improvements for our community. On behalf of our residents and visitors, we thank Governor Murphy and the New Jersey Department of Transportation for designating the Great City of Atlantic City as a Transit Village."

Atlantic City Holds First Flag Retirement Ceremony

Posted Wednesday, June 14, 2023

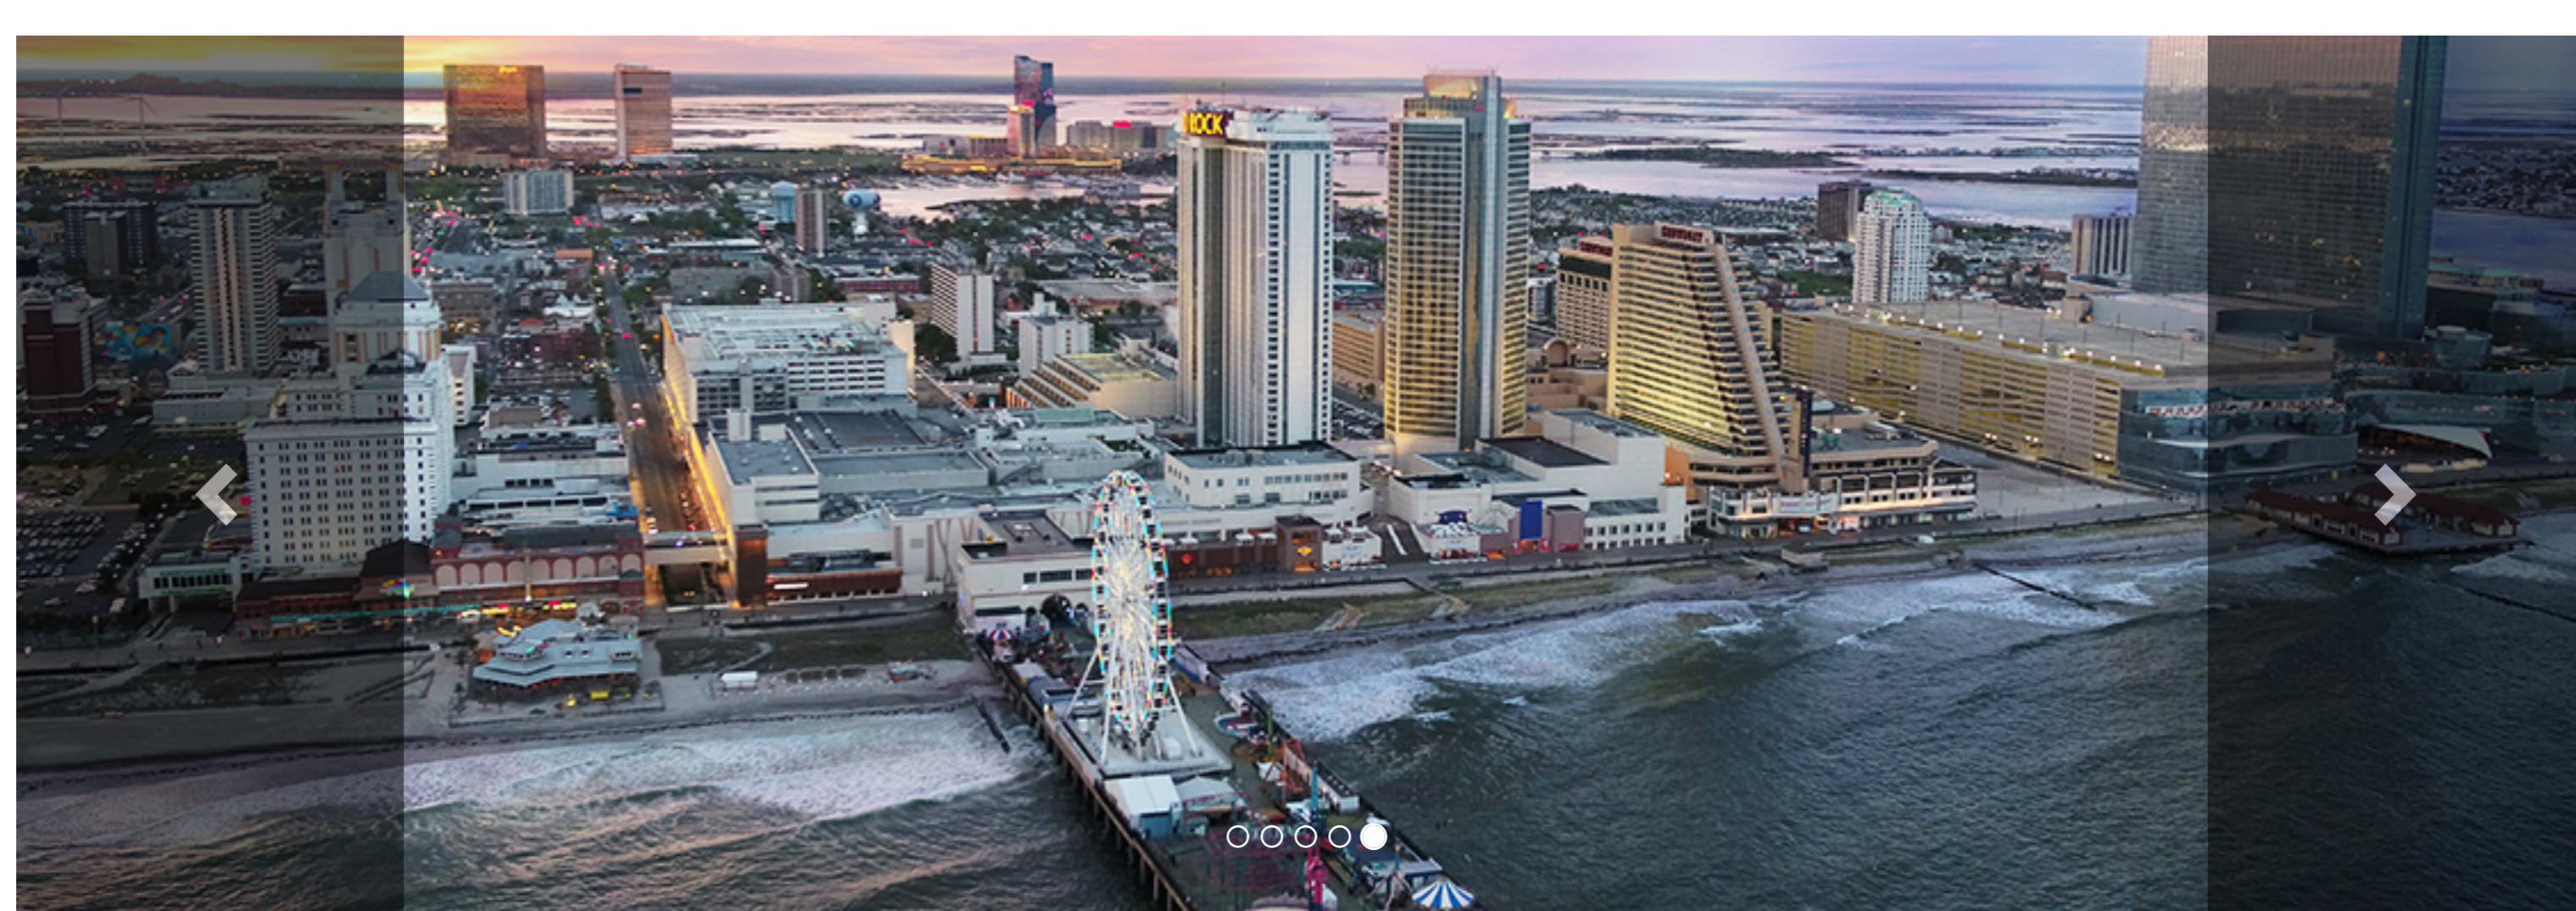

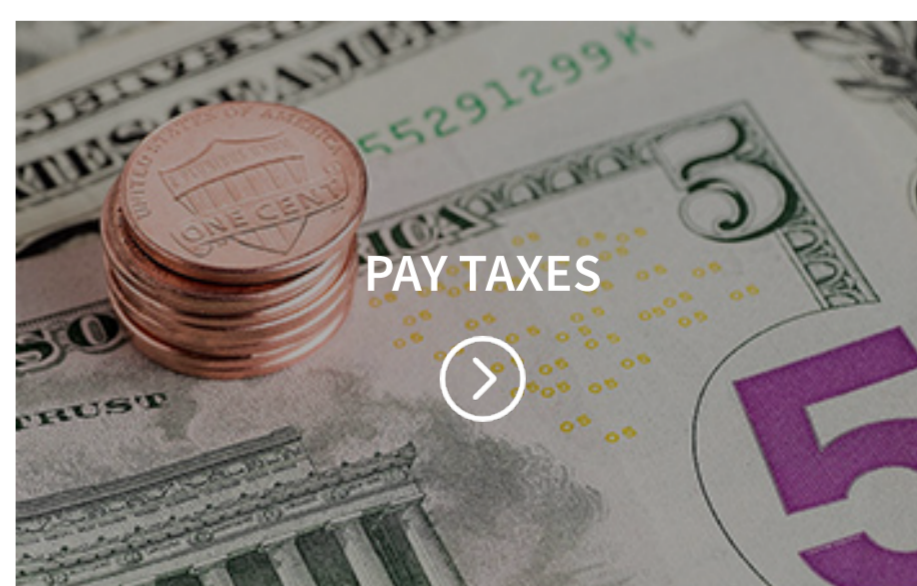

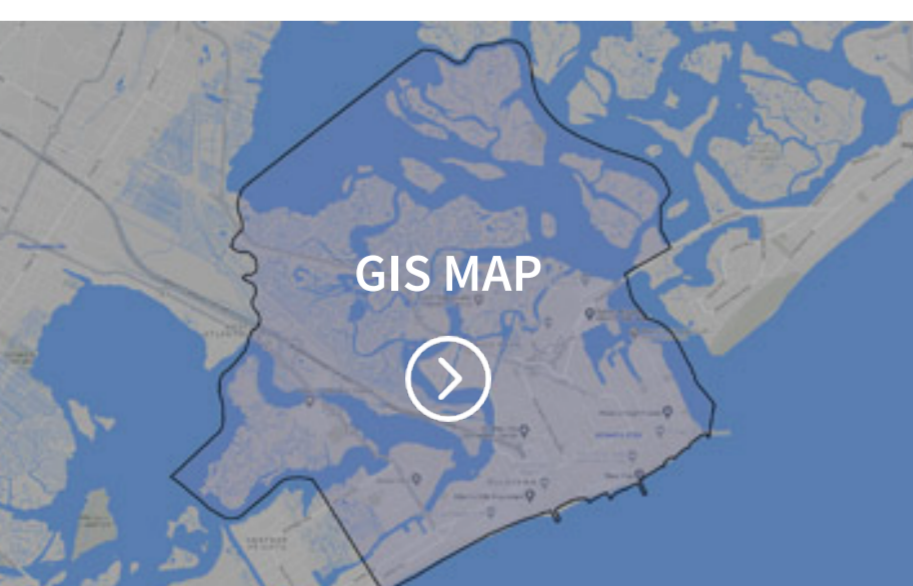

The City of Atlantic City teamed up with the American Legion to hold the city's first Flag Retirement Ceremony at Bader Field on Wednesday, June 14th (Flag Day).

Worn out, torn and tattered flags should never just be thrown away in the garbage. Last month, the Atlantic City Police Department installed a U.S. Flag Retirement Drop Box at the Public Safety Building (2715 Atlantic Ave). Flags collected from the drop box, and old American flags collected by the American Legion, were properly disposed following Wednesday's ceremony. Representatives from the Mayor's Office, Atlantic City Police Department, Atlantic City Fire Department and American Legion were all on hand.

The ACPD will continue collecting old U.S. flags at the Public Safety Building.
